HOUSING NEXT ROOSEVELT AIM GOTHAM TOLD

President Declares Americans Should Live in Decent Homes

NEW YORK, Oct. 28.—Franklin D. Roosevelt stood in the shadow of the statue of Liberty and, as president-elect of the United States, dedicated the United States to carry forward American freedom and American progress.

Soon afterward, speaking to thousands who live in the crowded tenement side of Manhattan, he picked up the political banner that has been known in store for America and by our example prepare for the nation.

"We shall certainly get it," he said, "if on Nov. 3 you vote to government which I am confident you want—a government which will continue to work for the betterment of the American citizen, for the security of savings, and for better homes in every part of the nation."

"As a matter of fact," he said, "I am not for long, neglected the housing problem for all our lower-income groups. We have millions and other projects of civic betterment."

For the most part that was money well spent. But we have not yet begun adequately to spend money in order to help the families in the overcrowded sections of our cities to live as American citizens have a right to live.

"You and I will not be content until city, state and federal governments join with private capital in helping every American family have a right to live."

JIM MOLLISON IS DOWN STILL

HARBOR GRACE, Nfld., Oct. 28.—Threatening seas kept Capt. James Mollison grounded this morning as he waited here beside his speedy Bellanca monoplane ready to fly to London if weather conditions brightened.

He spent the day chatting with airport officials and superintending loading of supplies aboard the "Dorothy" in which he hopes to make a New York-London crossing in 17½ flying hours. Late this morning he was told uncertain when he would hop off.

PARLEY AVERTS FRISCO STRIKE

SAN FRANCISCO, Oct. 28.—Threat of a seamen's maritime strike involving 37,000 men was averted today for at least 24 hours by last minute negotiations to reach new working agreements between shipping companies and seamen's unions.

Delay in calling a walkout was decided upon by the joint negotiating committee of seven west coast unions, which had been empowered to call a strike last night if agreement on vital issues was not reached by then.

The extension presumably will continue operations until midnight tonight, although the union sent to other coast ports of P. M. Kelley, secretary of the Maritime Federation, said that only the strike was delayed for "24 hours."

Men were instructed to continue working until a strike call is issued. The union's strike call is issued.

\$25,000 FIRE HITS WAYNE

WAYNE, Alta., Oct. 28.—Smouldering fires were all that remained today of the largest block in the town after a fire late yesterday destroyed the structure causing approximately \$25,000 damage.

The building, housing a grocery, a meat market, the telephone office and the post office, was valued at \$10,000.

Wayne is about 65 miles north-west of Calgary. Grocery stock valued at \$10,000 were totally destroyed. Part of the building was used as a residence by N. H. Hays, owner of the butcher shop. His furniture was saved.

The building was half-covered by fire and one-third of the grocery stock was lost.

The physician wanted to know what medicine was available in the town and what he could do for the sick. He was only whisky.

One of the most useful aids in heart trouble, the whisky is now being administered in specified doses under Dr. Giegie's direction.

Several attacks daily. The patient has two or three heart attacks a day. It is feared he is following each attack, left in a weak condition. His strength and his heart action are being kept up by the administration of the medicine.

First plane which will be able to reach the town is the plane of Pilot Rudy Hays, Canadian Air force, who is "flying in" at Fort Smith and will take off as soon as conditions permit, to fly a doctor from the town.

DOCTOR TREATS MAN 800 MILES AWAY BY RADIO

Report from Yellowknife Thursday afternoon stated that Jim Purvis appeared to be "on the mend." Treatments were started Wednesday evening and he passed the night without a single heart attack. He had a mild recurrence Thursday morning but was feeling stronger at noon.

Medical service by remote control. An Edmonton physician today is attending a patient 800 miles away in a northern mining camp, with his instructions being flashed over the ether by two radio operators.

The patient is Jim Purvis, aged 24, who has been prospecting all summer with Arthur Flin's party in the Yellowknife. He is now critically ill at the Yellowknife, near Great Slave Lake.

The physician is Dr. Conrad G. Giegie, who is instructing the men at the camp in his care and is in communication with them every few hours.

Handling the message between doctor and patient are Bruce Marshall, Canadian Airways radio operator at Yellowknife and Fred Barrow, Canadian Airways operator in Edmonton.

FREEZE UP SEASON. This is the freeze-up season and all airplanes are grounded. Until the planes can fly, the radio is the only link.

Early in the month Purvis took a heavy cold but four days ago he went to bed, suffering severe heart attack.

Wednesday his friends in the camp became frightened at his condition and in the evening Bruce Marshall at the Canadian Airways station called Fred Barrow.

His message told the history of the patient's illness, explained the symptoms and asked his present condition.

Dr. Giegie and Dr. Giegie and his wife were able to know what medicine was available in the town and what he could do for the sick. He was only whisky.

Here Death Rains Down From Above

PARIS, Oct. 29.—Informed Spanish sources tonight said a new government army, equipped with Russian tanks and planes, has been gathered at the southeastern cities of Albacete and Alicante to attack the rear of insurgent armies in time to save Madrid.

MADRID, Oct. 28.—Waves of rejecting a swept, disheartened Madrid today as the government announced socialist bombing planes had destroyed at least 17 fascist aircraft.

Disheartened women, their emotion brought over the breaking point by daily raids over the capital, wept as they saw the capital being bombed.

"Right to the death victory is yours," Premier Largo Caballero warned the capital that "the hour for decisive effort has arrived."

MARKED TRIUMPH. The official bulletin hailed the successes as "the most marked triumph" since the civil war broke out 14 weeks ago—and for the moment, the fact that Fascist planes had destroyed the capital, a virtual state of siege and are poised within 10 miles of the city, was forgotten.

Twelve insurgent planes were destroyed at Talavera de la Reina in the southwest, the government reported, and at least five others were blown to bits in a Socialist raid on Seville. Heartened by these triumphs, however, disheartened women ran from the streets, and columns of 35,000 civilians, as it marched through the streets to the defense of the capital, were seen.

Snowden Remains in City

By SPUD MURPHY
Quietly sitting in his hotel room Thursday morning, Walt Snowden, lucky winner of \$55,000 in the Canadian sweepstake, got many a chuckle as he read the numerous letters received by him since it was announced in The Bulletin he had drawn the favorite in the race.

There was a sameness about the letters. They all started off with expressions of delight at the news of his win. Then they went on to unfold what Mr. Snowden could do with his money, and how they could be useful to him in his living it.

"There are some going to be a lot of people disappointed," chuckled Mr. Snowden. "I am sure to be disappointed if I am not able to get my money out of the bank."

There were letters from real estate houses, offering him bargains in land and from insurance agents offering him suitable policies. There were letters from a widow, offering him a large sum of money, and from a man, offering him a large sum of money.

SOCIAL FRICTIONS IN BIRTH CONTROL TRIAL

BUSINESS SERVICE DRAWS CAPACITY CHURCH AUDIENCE

Challenging members of all Christian denominations to vindicate their faith, by a fraternal re-dedication to the living personality Christ, Canon Horatius Heaney and Dr. J. W. Clark, Winnipeg preachers, delivered a conference Wednesday night at Methodist church, Right Rev. A. E. Barrett, Bishop of Edmonton, presided.

"From Genesis to the final book of the scriptures there verberates as a dominant theme an emphasis on the church raises its voice in strenuous opposition to the view of the age. The New Testament is effectively a book of insurance," asserted Dr. Clark.

HURIS CHALLENGE
He added that a note of challenge has always been the characteristic temper of the ministry at its best, and argued that the value of the Christian tradition depended upon its never being staid, its monthly to the sins of the world and dominate it, humble it, tame it and change it.

The visiting speaker drew, however, two modern developments thwarting the church in its exercise of this prerogative, and making it "instead of an inviolable force, a force in the process of being lost." These new forces were classified as a "baited social philosophy" and the growth of the secular mind. "Tyranny is abroad in Europe and America," he said, "and the expression of the human soul as well as the Christian Church is being lost."

"This war of the totalitarian state is making man, framed in the image of his Maker, a mere common instrument to be moulded into any fashion according to the arbitrary caprice of the dictator."

ADVOCATES CROSS
Canon Heaney urged his hearers to strive for the erection of a cross in all churches and in the city as a token of this community's earnest devotion to Christianity.

The speaker emphasized that the inclusion of Calgary in integral to any religious event is an admission of recognition of the value of civil that comes into its making.

He stated that there were two Christs portrayed in the New Testament, the Jesus of the Gospels and the living Christ, and the other holy books. He acknowledged the labors of modern research in establishing the authenticity of the historic Jesus and called upon the rank and file to complete the process by re-discovering the living Christ for themselves and bearing heroic witness to him.

Right Rev. Malcolm Campbell, Moderator of the Presbyterian Church in Canada, brought greetings to the service were Rev. E. C. Strang, Canon E. F. G. G. Strang, and Rev. D. C. Ramsey, and Rev. C. G. Strang, Choir from McDougall United, First Baptist, First Presbyterian, All Saints Catholic and congregations led the singing. The ritual band played appropriate musical selections.

OUTBREEDING FEAR EXISTS IN CANADA, REV. SILCOX AVERS
EASTVIEW, Ont., Oct. 28.—The question of birth control in Canada was brought into the spotlight at Brocton, Pa., yesterday, charged with advertising birth control information and contravening in Eastview. The case was adjourned till Monday.

The court listened to evidence of a sociologist that birth control might lead to an increase rather than a decrease in the Canadian population and to reasons for an opinion. Anglo-Saxon Canadians feared Canadians of French racial origin sought "deliberately" to outbreed other sections of the population.

EXPRESSED FEAR
The Crown drew attention to a news service report of a speech by Rev. Charles Silcox, secretary to the Social Service Council of Canada, and an expert sociological witness for the defence, delivered August 28, 1935, in Williamsburg, Mass., in which attention was drawn to the alleged fear of out-breeding in the minds of English-speaking Canadians.

Mr. Silcox, cross-examined by Crown Attorney Ross Mercer, admitted making the speech, in which he was reported as having said that the English-speaking Canadians of fear they were being out-bred.

Mercer asked Silcox if he could define the origin of that "fearful feeling," to which witness replied that a feeling existed that certain groups "either on racial or religious lines" were outbreeding other groups there was a witness for it.

Further grounds for suspicion would arise, the witness said, if knowledge of birth control methods was being deliberately withheld from a group being encouraged to raise large families.

MIGHT BE BETTER
Mr. Silcox, the day's only witness, emphasized, however, he did not admit the fear was correct. From a sociological stand point, he declared, "it might be a very good thing if the French outbreed the English."

In support of his answer that birth control might result in an increase rather than a decrease in the Canadian population, Mr. Silcox instanced the high birth-

rate of The Netherlands, where contraception is legal with the lower birthrate of adjacent Belgium, where such measures are forbidden by law.

Patrick Has New Tricks In Changing Of Players

Full Team of Left Or Right Hand Shots On Ice At Same Time

WINNIPEG, Oct. 29.—(Editorial) "Silver Fox" of the National Hockey League is all set to put a bag of tricks in the ring this winter. His rival New York Rangers will be one of the most unorthodox playing squads ever to grace the ice. The silver fox, he said after a press conference.

When the team take off on their trip to a play-off berth in the West, we hope to keep the edge on the jump.

Risko Wins Nine Rounds to Score Prize Upset of Indoor Fight Season—Balsamo Unable to Connect With Power Punches

NEW YORK, Oct. 29.—(Editorial) Risko, former middle-weight champion, turned in the prize of the indoor boxing season last night by administering a sound 10-round thrashing to Harry Balsamo, highly-touted, knockout specialist from the New York subway catenacs. Risko sealed 161 and Balsamo 160.

A capacity audience of nearly 6,000 fans crowded into the New York hippodrome to see the Syracuse youth, recently dethroned by Freddie Steele, take a long snap along the comeback trail by winning every round but one from Balsamo, called the hardest hitting middleweight since Bob Fitzsimmons campaigned among the 140-pounders.

It was Balsamo's first revenue in 21 professional fights. He was given his last knockout by a 10-round decision by the New York hippodrome.

Curious World

The Platoon Man, believed to have lived from 100,000 to 150,000 years ago, and the Heidelberg Man, who may have lived 500,000 years ago, were chins. The Neanderthal Man, the first possibly human ancestor known, had only a suggestion of a chin.
